

# Neura Technologies

2024

## The Future of Automatic Cashback

# Disclaimer

Neura Technologies provides an **advanced platform designed to optimize your advertising budget and enhance sales through our AI-driven cashback system.**

While our tools and strategies aim to maximize your returns, please be aware of the following:

## Advertising Campaigns

The success of advertising campaigns generated by our platform may vary based on numerous factors, including market conditions, consumer behavior, and budget allocation. We encourage users to monitor their campaigns closely and adjust their strategies as needed.

## Sales Performance

Past performance is not indicative of future results. While our platform is designed to improve sales, we do not guarantee specific outcomes, as sales can be influenced by factors beyond our control.

## Cashback Rewards

Cashback rewards are calculated based on predefined criteria and may fluctuate depending on the sales generated through our platform. Please note that cashback distribution is subject to the policies of our partnered companies and may vary from time to time.

## Protect Fund

A portion of the cashback is allocated to the NeuraBot Protect Fund to safeguard against returns, cancellations, and other unforeseen circumstances. This fund ensures the stability and reliability of the platform, but does not guarantee against all risks.

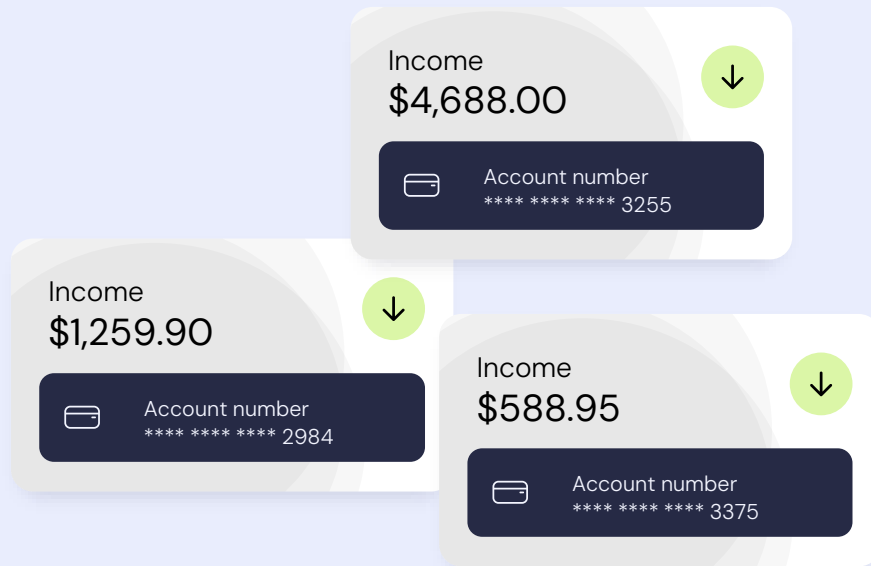

# About Us

At Neuratech Global, we are revolutionizing the way people shop with our innovative platform that brings the power of cashback to online and offline purchases.

Our flagship product, NeuraBot, is an AI-powered, fully automated cashback platform designed to enhance the shopping experience. With NeuraBot, customers can effortlessly earn cashback on their purchases at a wide range of stores, making their shopping **more cost-effective and rewarding**.

But the benefits extend beyond consumers. For businesses, NeuraBot is a powerful tool to increase sales and gain a deeper understanding of customer preferences. By offering cashback incentives, sellers can attract more customers, boost their revenue, and leverage data-driven insights to optimize their marketing strategies.

## our mission

**Our mission** is to empower consumers by offering them a seamless way to save money on their everyday purchases while simultaneously providing businesses with valuable insights into customer behavior.

**Join us in transforming the shopping experience and unlocking new opportunities for growth.**

# Our Global Offices

Neuratech Global is proud to have a growing international presence.

These strategic locations enhance our ability to serve clients globally and drive innovation across key markets.

# The Impact and Potential of Artificial Intelligence

01

## Job Displacement

By 2030, AI is expected to automate up to **30% of jobs globally**, potentially displacing millions of workers, but also creating new roles in tech and AI-related fields.

02

## Market Growth

The AI market was **valued at approximately \$240 billion in 2023** and is projected to exceed \$1.5 trillion by 2030, highlighting its rapid expansion and adoption across industries.

03

## Industry Disruption

AI is **revolutionizing** sectors like healthcare, finance, retail, and manufacturing, improving efficiency, accuracy, and decision-making processes.

04

## Productivity Boost

AI could increase global GDP by up to **14% by 2030**, adding an additional \$15.7 trillion to the world economy.

05

## Investment Surge

Companies are investing heavily in AI, with global investments expected to reach over **\$300 billion annually by 2025**.

**AI is not just a technology;** it's a transformative force reshaping industries, economies, and the future of work.

# Cashback Systems

## » Purpose

Reward consumers with a percentage of their purchase amount back, enhancing savings and encouraging repeat business.

## » Benefits

Attracts customers, boosts sales, and provides valuable data for targeted marketing.

# AI in Cashback Systems

## » Personalization

AI analyzes consumer behavior to offer tailored cashback deals and recommendations.

## » Automation

Streamlines cashback processes, from tracking purchases to managing rewards, reducing manual effort and errors.

## » Insights

AI-driven analytics help businesses understand customer preferences and optimize their cashback strategies for better results.

AI enhances the efficiency and effectiveness of cashback programs, creating a win-win for both consumers and businesses.

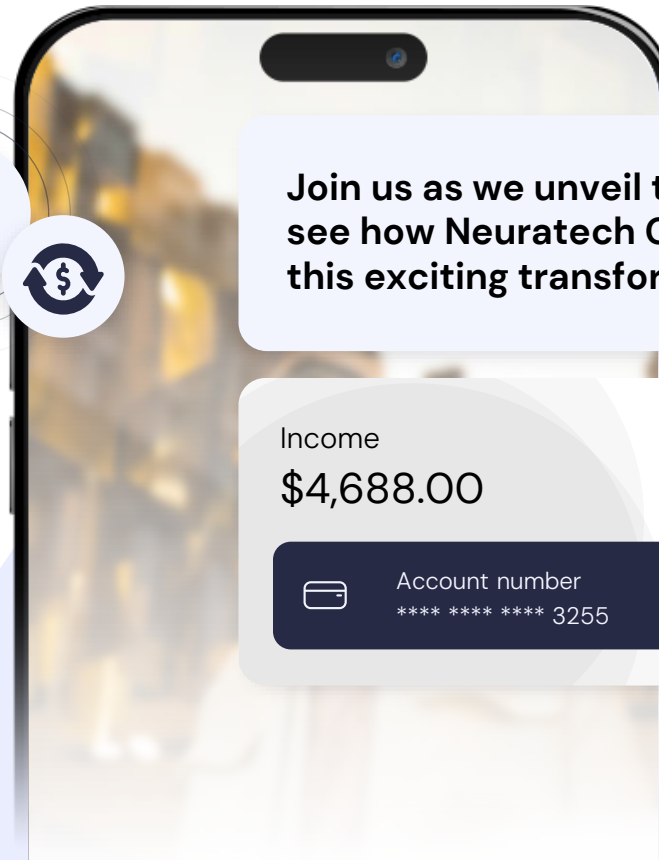

# Welcome to Neuratech Global

Today, we will delve into our advanced AI-driven platform, NeuraBot, which offers a seamless and automated cashback experience for both consumers and businesses.

## Discover how our technology

- Enhances savings
- Boosts sales
- Provides actionable insights
- Driving growth and efficiency in the retail sector

# The Problem

In today's retail environment, both consumers and businesses face several challenges

01

## Lack of Savings

Traditional shopping methods often fail to maximize savings opportunities.

02

## Complex Cashback Processes

Manual tracking and redemption of cashback offers can be cumbersome and confusing.

Consumers

01

## Customer Retention

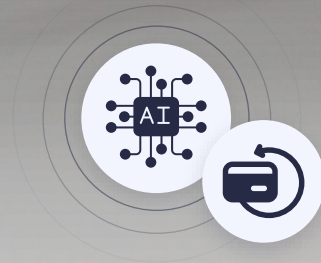

Attracting and retaining customers can be challenging without effective incentives.

02

## Data Insights

Limited tools for analyzing customer behavior and preferences hinder targeted marketing strategies.

Businesses

These issues highlight the need for a more efficient, user-friendly solution to enhance shopping experiences and drive business growth.

**Neuratech Global can help solve all of these problems!!!**

# The NeuraBot Solution

NeuraBot addresses key challenges with a cutting-edge AI-driven platform designed to revolutionize cashback systems.

## Automated Cashback

Seamlessly tracks and processes cashback rewards.

## Enhanced Insights

Provides businesses analytics to understand customer preferences, optimize marketing strategies, and boost sales.

## Personalized Offers

Utilizes AI to analyze consumer behavior and deliver tailored cashback deals.

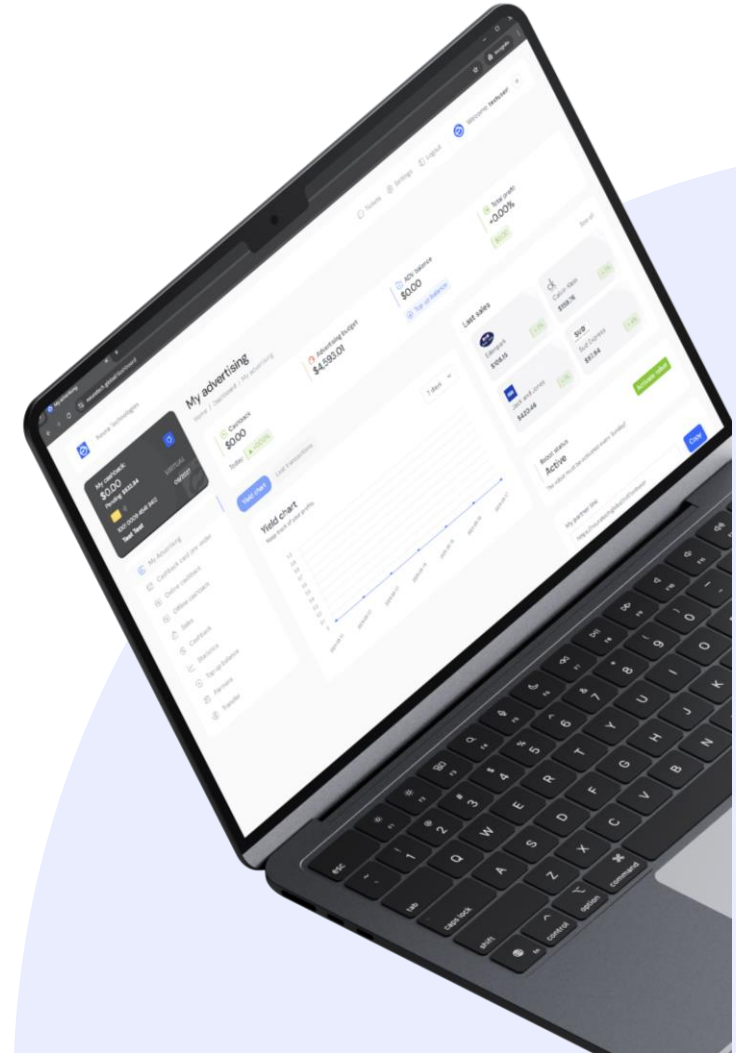

## Efficient Integration

Easily integrates with various retail systems.

NeuraBot transforms the way cashback programs operate, offering a win-win solution for both consumers and businesses.

# How It Works

### User Sign-Up and Budget Allocation

The user signs up on the platform and adds an advertising budget.

01

### Automated Campaign Generation

Our AI-powered robot generates targeted advertising campaigns and drives sales based on the allocated budget. Advertising campaigns start 48 hours after funds are added on average.

02

### Cashback Redistribution

Partner companies redistribute the cashback from the sales generated to Neura Technologies.

03

### Cashback Processing

The platform calculates the cashback according to set criteria and automatically adds the rewards to the user's account. For each sale, 55% of the cashback generated is returned to the user, while 45% is allocated to the Neurobot Protect Fund (Insurance fund).

04

### The higher the advertising budget, the more campaigns the robot can launch, maximizing sales and cashback opportunities.

**key insight**

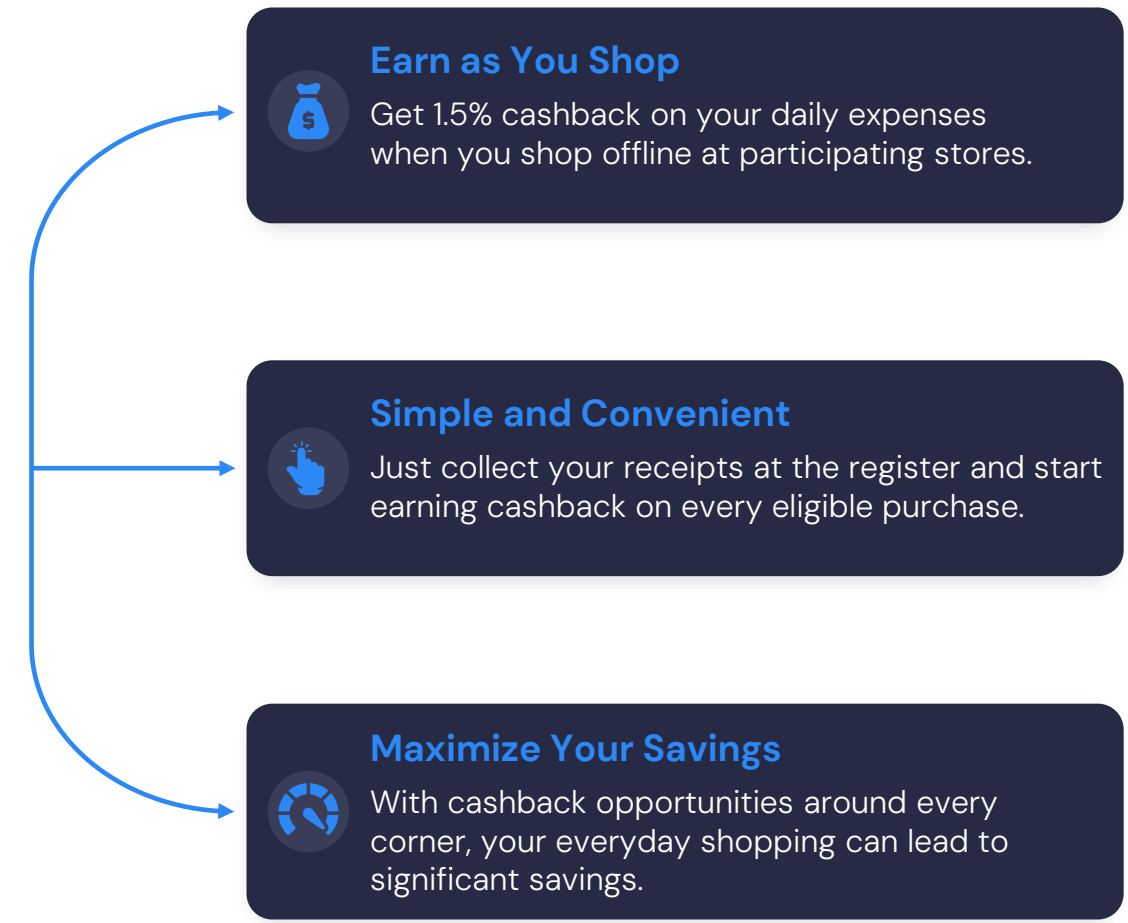

# Maximize Savings with Offline Cashback

Go shopping at your favorite local stores and enjoy great cashback rewards with Neura Technologies!

Here's how it works:

 **With Neura Technologies, great benefits are waiting for you everywhere you shop.** Make the most of your offline purchases and start collecting cashback today!

# Unlock Extra Rewards with Online Cashback

## » Wide Range of Retailers

Enjoy cashback offers from a broad selection of partnered e-commerce sites, covering everything from fashion to electronics.

## » Automatic Savings

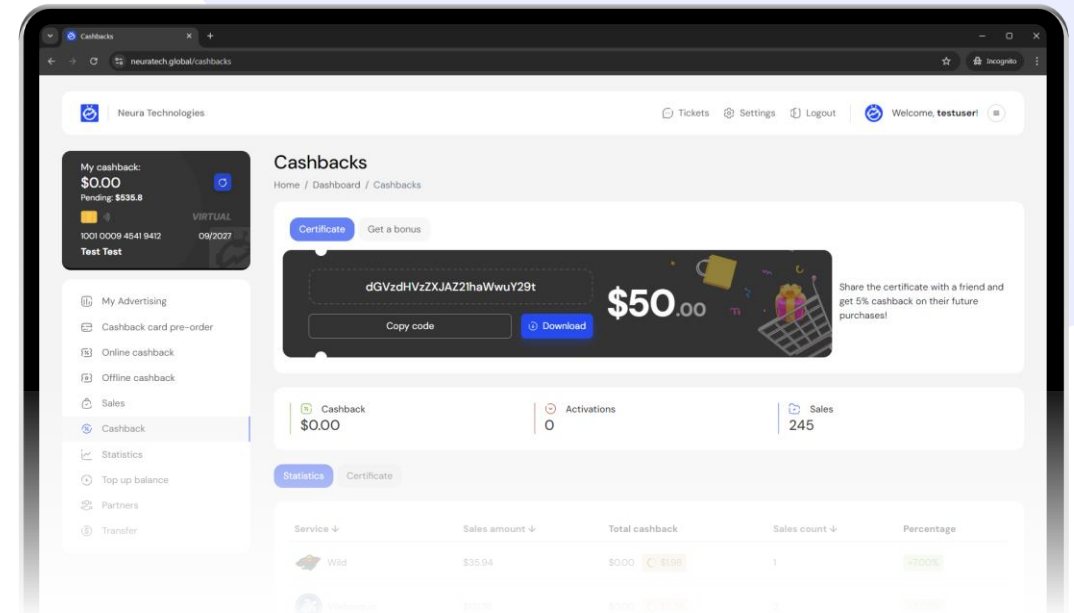

Our platform tracks your purchases and automatically credits cashback to your account, making it easy to save without any extra effort.

## » Exclusive Deals

Access special promotions and higher cashback rates, giving you even more ways to maximize your savings.

## » User-Friendly Experience

With a simple and intuitive interface, earning cashback online has never been easier.

## Shop Online, Earn Cashback

Simply shop through our platform at your favorite online stores and receive cashback on every purchase.

# Advanced AI Technology

NeuraBot's proprietary AI technology, CashbackMax, utilizes state-of-the-art machine learning algorithms and big data analysis to optimize cashback offers for each user.

CashbackMax employs deep learning neural networks to identify patterns in user behavior and predict future shopping trends, enabling NeuraBot to deliver highly personalized and lucrative cashback deals.

The AI system continuously learns and adapts to evolving market conditions, ensuring that users always receive the best possible cashback offers.

# Our Partners

At Neuratech Global, we collaborate with a network of esteemed partners to drive innovation and deliver exceptional value.

Main Stores

Our partnerships span across various industries, enabling us to integrate cutting-edge technologies and expand our reach globally.

These strategic alliances allow us to continuously enhance our AI-driven solutions, ensuring we stay at the forefront of industry advancements.

Together with our partners, we are shaping the future of shopping, creating seamless experiences for consumers, and empowering businesses with powerful insights.

# Marketing Plan

## Introducing the 3 bonuses

Our multi-level affiliate plan

### Unilevel Bonus

Earn commissions from the advertising budgets of your direct referrals and their teams.

### Ranking Bonus

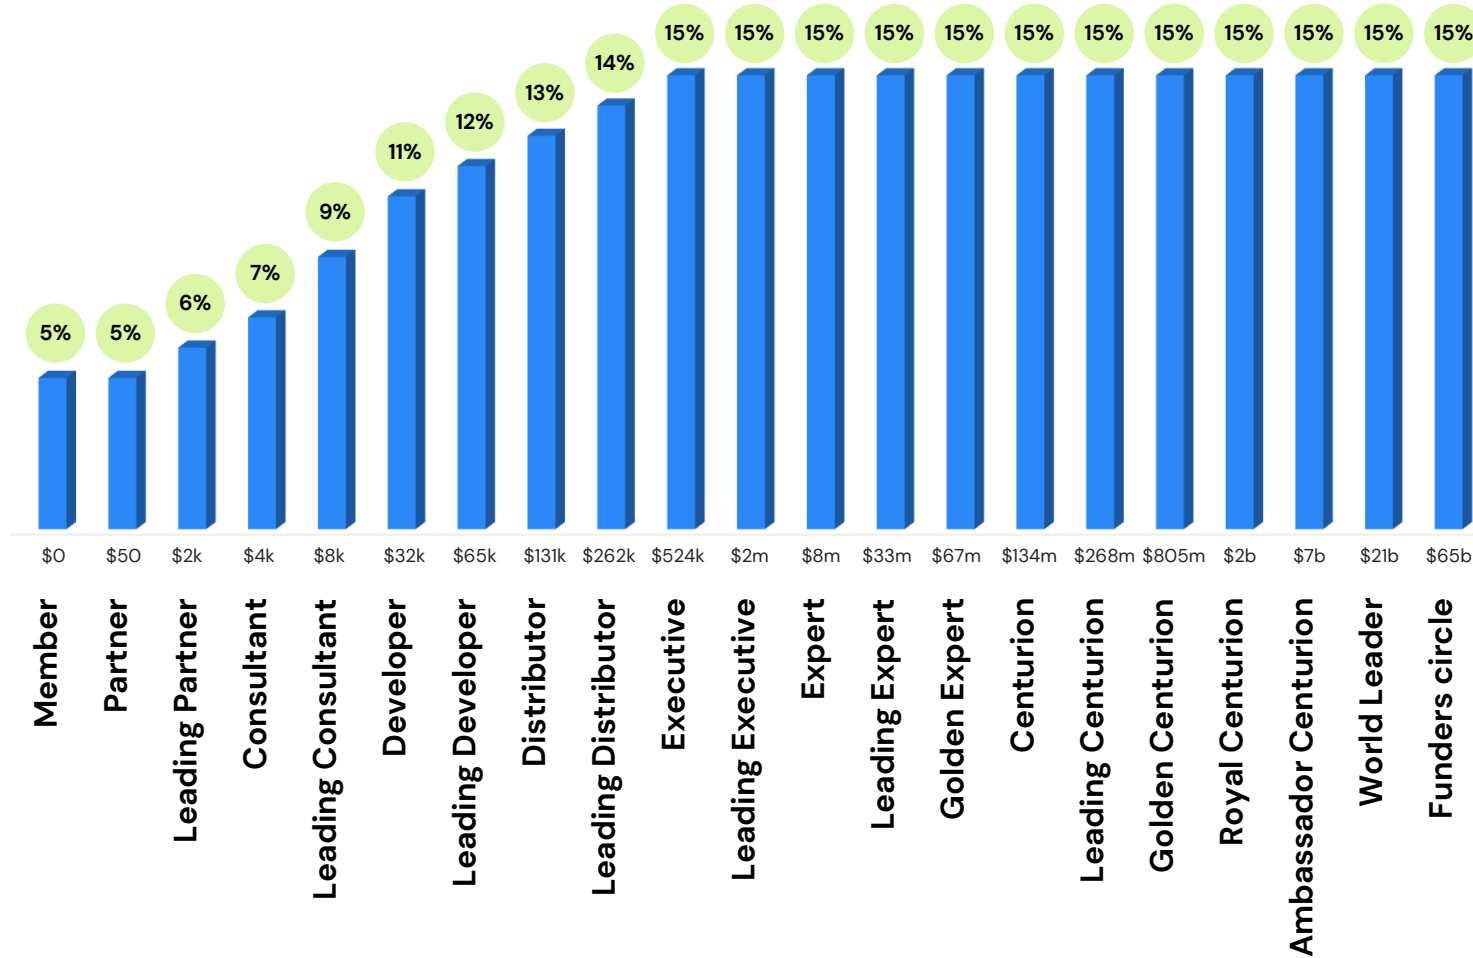

Unlock additional rewards as you progress through the ranks by increasing your team's performance.

### Cashback Booster

Share your \$50 certificate and earn 5% from your friends' future advertising budget purchases.

# Marketing Plan

## Unilevel Differential Bonus

The Unilevel Differential Bonus is a key part of the NeuraTech marketing plan, allowing you to earn a percentage of the advertising budgets generated by your direct referrals and their downlines across all levels (no limit). The higher your turnover, the higher percentage you get from each invitee.

### How It Works

#### Direct Referrals:

You start by earning a bonus on the advertising budget purchases of the people you personally refer to the platform. This bonus is a progressive percentage of their ad spend.

#### Unlimited Depth:

This bonus pays through all levels (no limit), creating an opportunity for long-term passive income as your team grows. The higher your volume, the deeper you earn in the structure.

#### Differential Payouts:

The Unilevel structure allows you to earn a differential bonus, meaning if your unilevel percentage entitles you to a higher percentage than someone in your downline, you receive the difference. For example, if you're eligible for a 12% bonus but your direct referral only qualifies for 7%, you would receive the 5% difference from their team's advertising budgets.

# Marketing Plan

Rank Name	Weak Branch	Active Budget	Total Volume	Bonus
Member	\$0.00	\$50.00	\$0.00	\$0.00

Funders Circle	\$32,614,907,904.00	\$132,710,400.00	\$65,229,815,808.00	\$530,841,600.00

## Ranking Bonus

The Ranking Bonus rewards you based on the growth and balance of your network. As you advance in rank, you unlock additional bonuses that are tied to the performance of both your strong and weak branches, as well as your active budget. This bonus is designed to incentivise leadership and strategic network development.

### How It Works

To qualify for Ranking Bonuses, you must meet the following three conditions:

#### Minimum Active Budget:

You need to maintain a minimum value of active budget to be eligible for ranking bonuses. This includes the total value of all your active budget, which ensures you are continually investing in the platform and leveraging the tools available to grow your business.

#### Strong Branch Value:

Your network's growth is divided into a strong branch (the referral with the largest team) and other branches. The strong branch refers to your referral who has built the most successful and largest network under them. To qualify for ranking bonuses, the sales from this branch must account for 50% of the rank's target sales value.

#### Weak Branch Value:

The other branches in your network are classified as weak branches. To balance the network and promote growth across your team, you must ensure that the sales from all your weak branches (excluding the strong branch) also account for 50% of the rank's target sales value. This ensures that your entire network is thriving, not just one branch.

# Marketing Plan

## Cashback Booster

**Unlock even greater rewards with the Cashback Booster!**

### \$50 Gift Certificate

Each customer receives a unique \$50 gift certificate to share with friends. This certificate can be used by their friends to boost their advertising budget.

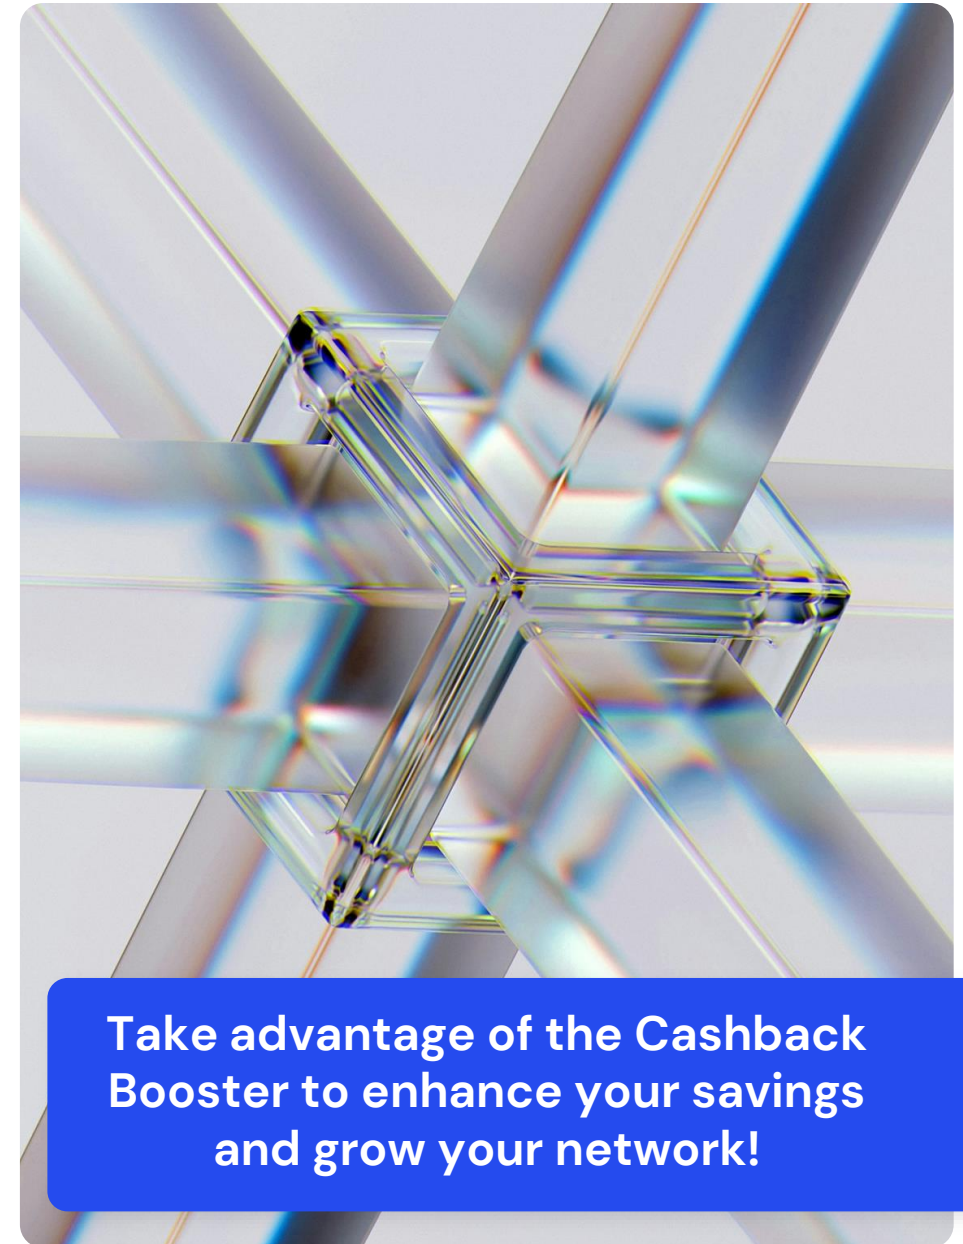

### Share and Earn

When your friends use your certificate code, not only do they get \$50 added to their advertising budget, but you also earn 5% on all their future advertising budget purchases.

### Mutual Benefits

The more you share, the more you and your friends benefit—boosting both your cashback potential and theirs.

**Take advantage of the Cashback Booster to enhance your savings and grow your network!**

# Company History

Neuratech Global was born in 2010 out of a shared idea to harness the power of artificial intelligence to create innovative solutions that transform industries.

The journey began with a small team of passionate technologists who recognized the untapped potential of artificial intelligence to revolutionize everyday tasks and business processes.

Starting out by creating products driven by artificial intelligence, we quickly gained recognition for our ability to combine cutting-edge technology with user-centered design.

This early success fueled our drive to expand and bring our innovations to a global audience. With the launch of our flagship product NeuraBot, we set a new bar in retail by offering an automated, artificial intelligence-based cashback platform that benefits consumers and businesses alike.

As we continue to grow, we have established a global presence by opening offices in key markets around the world. Our commitment to pushing the boundaries of artificial intelligence capabilities drives us to continually innovate, adapt and expand our offerings.

Today, Neuratech Global is a leader in artificial intelligence technology and is committed to creating smarter, more efficient solutions that improve the way we live and work. Our journey is a testament to the power of vision, innovation and the relentless pursuit of excellence.

# Roadmap

## » 2010-2013

### Research and Development

Our journey began with extensive research and development, leading to the creation of the first automated marketing campaign processes.

## » 2013-2016

### Concept Marketing

We introduced our concept to the market, collaborating with major global web companies such as Amazon, Apple, and Microsoft.

## » 2016-2019

### AI and Deep Learning Integration

We assembled a team of AI specialists and integrated deep learning strategies, machine learning, and big data analysis to better understand and predict user behavior.

## » 2019-2023

### Product Finalization and Initial Marketing

Our product was finalized and ready for launch, and we began marketing it in collaboration with private and institutional partners.

## » 2024

### Launch of the First Automatic Cashback Platform

A leading-edge team of AI specialists was formed, resulting in the creation and launch of the world's first fully automatic cashback platform.

# Guarantees

## Security

We prioritize the safety of your data with advanced encryption and security protocols, ensuring that your information remains protected at all times.

## Performance

Our AI-driven platform is designed to deliver consistent, high-quality results. We guarantee that our automated systems will operate with precision, maximising your returns.

## Transparency

You have full visibility into your account activities, sales, and cashback earnings.

## Cashback Protection

For each sale, 55% of the cashback generated is returned to the user, while 45% is allocated to the NeuraBot Protect Fund.

This fund protects against returns, cancellations, and ensures the company's financial stability.

## Satisfaction

We stand behind the quality of our services.

If you're not satisfied with your experience, our support team is dedicated to resolving any issues promptly.

**Your success is our priority, and these guarantees reflect our commitment to helping you achieve it.**
